

# Cilfynydd to Melksham overhead power line refurbishment project

## Prosiect adnewyddu'r llinellau pŵer uwchben rhwng Cilfynydd a Melksham.

### Mae'r llinell bŵer rhwng Cilfynydd a Melksham yn rhedeg rhwng ein his-orsaf yng Nghilfynydd, De Cymru, a'n his-orsaf ym Melksham, Lloegr.

Yn nes ymlaen eleni, rydym yn disgwyl y bydd cam cyntaf y gwaith adnewyddu yn cael ei gynnal ar y rhan o'r llinell sy'n rhedeg o ogledd-ddwyrain Llanbradach, i'r gogledd o Fedwas a Threthomas, tuag at gyffiniau Llanfihangel-y-Fedw.

Cyn hyn, rydym yn bwriadu clirio rhywfaint o lystyfiant yn yr ardal hon, o amgylch gwaelod rhai peilonau ac o dan linellau trydan uwchben, er mwyn i'n contractwyr allu gweithio'n ddiogel. Rydym yn gweithio gydag ecolegydd i sicrhau bod cyn lleied â phosibl o lystyfiant yn cael ei glirio.

Byddwn yn ysgrifennu at drigolion a busnesau cyfagos y gallai hyn effeithio'n benodol arnynt, i roi gwybod iddynt beth sy'n digwydd.

Sylwch y gall amseriad ein gwaith newid ar fyr rybudd, oherwydd y tywydd a ffactorau eraill. Ein horiau gwaith fydd 7yb-6yh.

Mae'r prosiect adnewyddu yn rhan o'n buddsoddiad blynyddol gwerth biliynau o bunnoedd i gynnal ac i uwchraddio ein seilwaith trawsyrru trydan. Mae'r rhaglen adnewyddu yn cynnwys *The Great Grid Upgrade*, y gwaith ailwampio mwyaf ar y grid trydan ers cenedlaethau.

Os oes gennych chi unrhyw gwestiynau, mae croeso i chi:

### The Cilfynydd to Melksham power line runs between our Cilfynydd substation in South Wales and our Melksham substation in Wiltshire in England.

Later this year, we are expecting to carry out phase one of the refurbishment on the section of the line from north east of Llanbradach, north of Bedwas and Trethomas, to near Michaelstone-y-Fedw.

Ahead of this, we are planning to carry out some vegetation clearance works in this area around the base of some pylons and underneath overhead electricity lines so that our contractors can work safely. We are working with an ecologist to ensure clearance is kept to a minimum.

We will write to nearby residents and businesses who may be particularly affected and let them know what is happening.

Please note that the timings of our work may change at short notice because of weather and other factors. Our working hours will be 7am-6pm.

The refurbishment project forms part of our multibillion pound annual investment in maintaining and upgrading our electricity transmission infrastructure. The investment programme includes *The Great Grid Upgrade*, the largest overhaul of the electricity grid in generations.
